Сводка

#LI-Hybrid - Location: Hyderabad, 3 days' work from office at Novartis, Hyderabad is mandatory

Novartis' Content Enablement Team vision is to provide content technology that enables world-class creative and executional excellence by 2028. We will do this by developing an industry-leading content ecosystem for planning, creating, managing and publishing impactful content. This will allow us to:

- Enable a high-performance content lifecycle
- Make compliance effortless
- Provide an intuitive end-to-end experience
- Deliver best-in-class support and continuous product improvements

The Business Analyst collaborates with Content Enablement business and IT stakeholders to evaluate backlogs, gather and document requirements, and define business use cases. The role serves as a key liaison between business and technology teams, ensuring solutions are aligned with stakeholder needs and strategic objectives.

About the Role

Key Responsibilities:

- Partner with the Product Owner, stakeholders, and users to identify the problem to solve. Understand the desirability, feasibility, and viability of the problem and responsible to drive solutions with the business independently
- Collaborate with business stakeholders to understand their requirements and identify opportunities for process improvement.
- Conduct research to identify new technologies and methods to improve business processes.
- Ensure that requirements and functional documents are created and maintained in a timely, comprehensive manner.
- Translate the business needs to the development team to ensure we build the right thing and build it right.
- Analyze the feasibility of the requirements, identify product limitations and collaborate with the Product Owner to identify solutions.
- Leverage Jira to create, maintain, extend, tag & refine Epics, and User Stories.
- Participate in retrospective and planning sessions with the product team, assisting with requirement prioritization.
- Provide expertise and guidance to the training and change team.
- Analyzed the value of released features and their adoption.
- Help define Objectives and Key Results (OKRs), KPIs, and dashboards relevant to the Product team and various stakeholders.

Essential Requirements:

- **Minimum university degree with an advanced degree in science and / or business preferred**
- **Languages: Excellent fluency in English, orally and written with a second language a plus**
- At least 7 years of experience in a digital product development team with experience in Agile ways of working.
- Expertise on Content Marketing processes, platforms or Digital Asset Management process/platforms
- Experience with content planning, creation, authoring, and approvals.
- Strong organizational, problem solving, and analytical skills with a proactive "can do" approach and a discovery and growth mindset.
- Ability to communicate effectively with senior management, manage issues, resolve conflicts, and mitigate risks.
- Ability to deliver high-quality work products with limited oversight
- Ability to design, implement and improves processes
- Keen listening skills and ability to empathize with stakeholders.
- Proven ability to drive, collaborate and operate across functions, cultures, and geographies within a complex environment, with experience working across multiple time zones.
- Commitment to lead on Novartis defined values & behaviors.
